

Hydrogen For Innovative Vehicles

- **15 EU Partners**
- **110 Vehicles**
- **6 Refuelling Stations**

INTRODUCTION

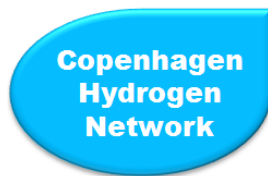

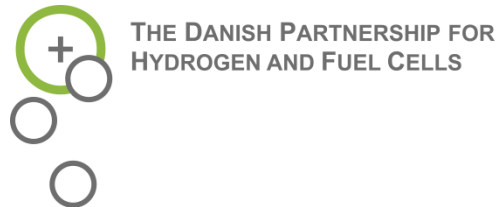

Hydrogen For Innovative Vehicles (HyFIVE)

- ❑ Bringing together 15 partners across Europe.
- ❑ Moving key regions in Europe from a demonstration to a market initiation phase through the deployment of advanced Fuel Cell Electric Vehicles (FCEVs).

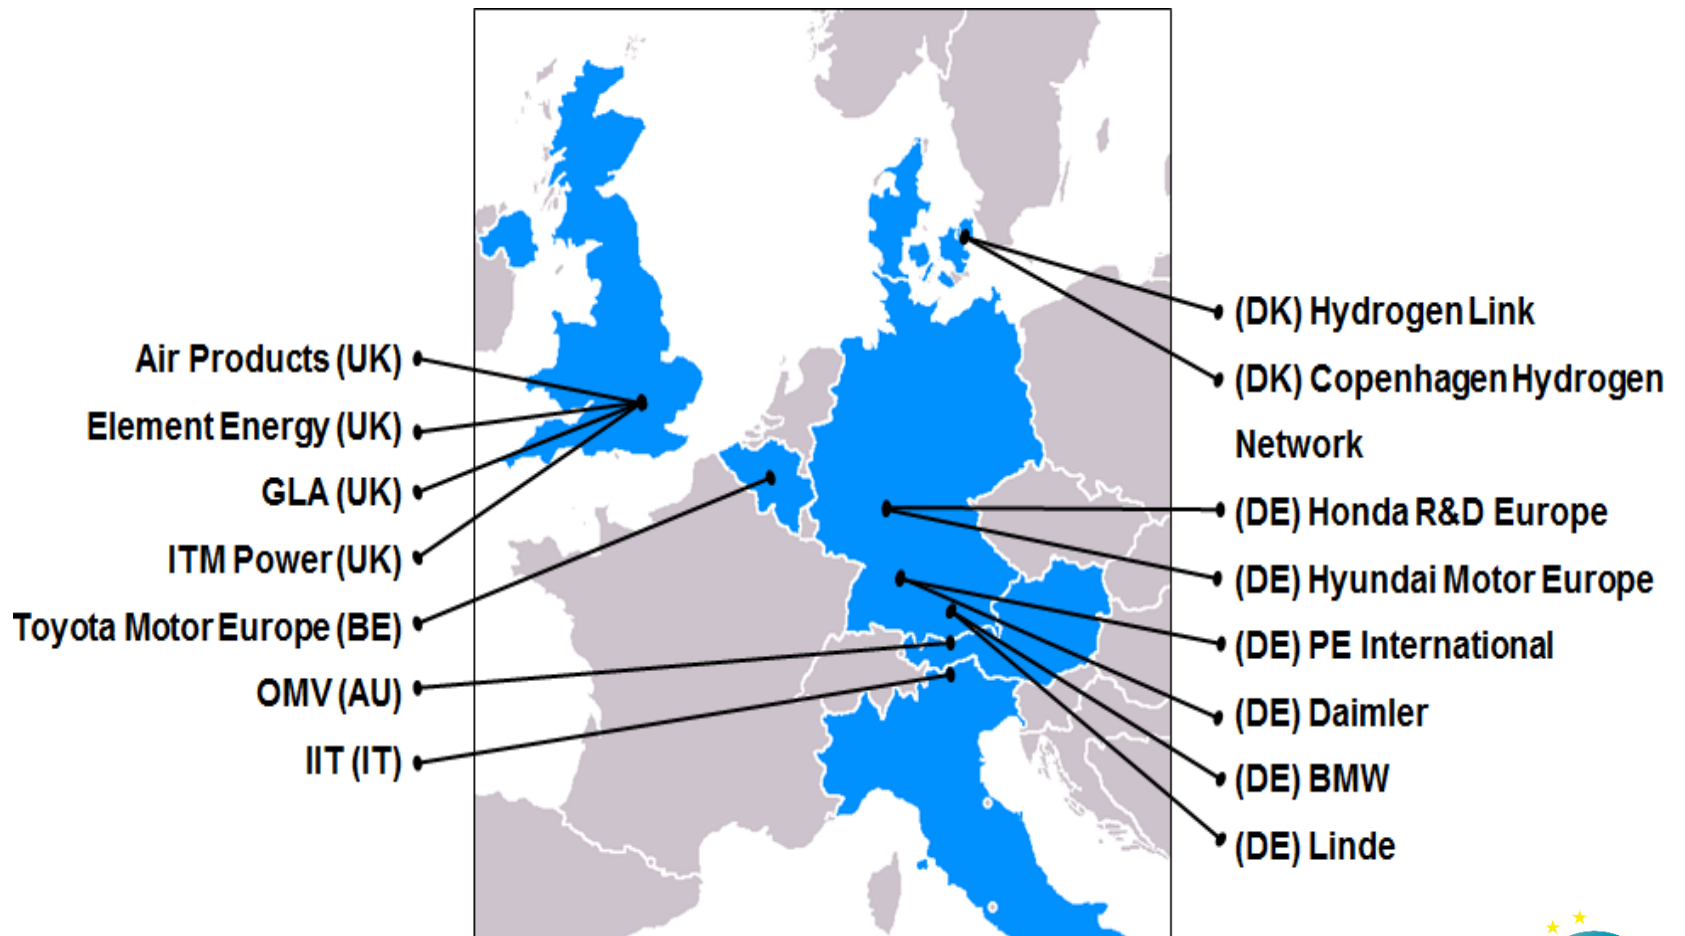

Hydrogen For Innovative Vehicles (HyFIVE) Aims

- ❑ Deploy up to 110 fuel cell electric vehicles (FCEVs) from the five global automotive companies who are leading in their commercialisation (BMW, Daimler, Honda, Hyundai and Toyota).
- ❑ Deploy 6 new stations and linking them with 12 existing stations supplied by Air Products, Copenhagen Hydrogen Network, ITM Power, Linde and OMV.
